Charging instructions

- Do not charge in a humid environment;
- Make sure that the metal contact on the watch body and magnetic charger are not dirty or corroded;
- Please clean the metal contact on the back of the watch and the magnetic charger with a clean flannel regularly. Make sure that the contacts of the watch and the magnetic charger are in full contact to ensure normal charging;
- This product is not equipped with a power adapter. In order to ensure the safety of your family and property, you can use a computer USB port or choose a power adapter with an output not exceeding 5V=1A when charging. Please purchase power adapters through formal channels, and never use low-quality and fake power adapters to avoid bursting or fire.

Features

- ①Car key function menu
- ②Function switch button, click to switch the dial or adjust the car key function menu

Car key function interface

Car key function

- Before using the car key function, please contact the dealer and drive to the designated location according to the prompts. The staff will match the car key for you.
- After the pairing is successful, swipe left on the dial page to enter the car key interface. The car key interface contains all function buttons. You can adjust the function menu by switching buttons in the middle of the dial. If your original car key does not support this function button, it cannot be used on the car key interface.
- The physical button under the watch serves as the vehicle control button. Click to unlock the door, double-click to lock the door, and long press to open the rear tailgate.
- Note: Keyless entry and keyless ignition may be affected when the watch screen is on. Please try again after turning off the screen.

Watch function

(1) Dial

- Bull-in dial: Multiple built-in dials can be freely replaced.
- Dial Market: APP built-in dial mall, can download dial, free to change
- Custom watch face: Users can upload patterns and customize watch faces within the APP

(2)Basic functions

- Menu mode: Double-click on the menu interface to switch menu styles
- Component management: Dial shortcut function, supports heart rate, sleep, car key and other functions
- Message reminder: You can synchronize the content of push messages on your mobile phone.
- Settings: Lift wrist to turn on screen, always on setting, brightness adjustment, screen off time, health reminder,language, button definition, sound and vibration, Do Not Disturb Mode, connect phone, power off, restart, about watch, time setting, factory reset, etc
- Quick features: lock screen, do not disturb, always on, find phone, raise wrist to light up screen, settings, etc

(3) Movement

- It includes various sports modes, such as indoor running, indoor cycling, outdoor cycling, brisk walking, football, badminton, basketball, hiking, mountain climbing, and free sports.

(4) Health

- Sleep monitoring: Your sleep duration and quality will be recorded every night to the next morning, helping you better adjust your rest time and improve sleep quality. In the sleep function interface, check the options about the sleep function.

- Heart rate: Hold the watch close to the wrist, and the best wearing position is above the wrist bone, which can measure the real-time heart rate value. The normal value for most people is 60-90 beats/minute.

- Blood oxygen: Hold the watch close to the wrist, and the best wearing position is above the wrist bone, which can measure the blood oxygen value.

- Breathing training: a way to quickly relax, relieve stress, and quickly replenish oxygen to the body.

- Pressure: The watch supports continuous pressure monitoring, monitoring the user's 24-hour pressure changes, using scientific health algorithms to display pressure with icons, allowing users to adjust their status at any time. Pressure range display: 1-29 relaxed, 30-59 normal, 60-79 moderate, 80-99 slightly high.

(5) Everyday tools

- Weather: Connect to the APP to synchronize the weather.
- Remote control camera: The camera is locked in the APP and can be operated by the watch to take photos.
- Find your phone: When the phone is not in silent mode, operate the watch and make the phone ring.
- Stopwatch: The watch supports stopwatch timing.
- Alarm clock: Support setting alarm clock for watch and APP.
- Calculator: Can perform simple calculations.
- Timer: The watch supports a timer.

Trouble shooting and after sales regulations

Name	Performance failure table
Smart Car Key Watch	1. Do not turn on. 2. The display screen is not lit or the touch screen is not functional. 3. Cannot be charged.

Non warranty regulations

- Wear and dirt caused by users' use, such as scratches and color changes; As well as damage caused by contact with chemical reagents, sharp objects, falling, extrusion and deformation.
- Unauthorized maintenance, collision, misuse, negligence, abuse, water ingress, accidents, and failures caused by the use of non-standard accessories of the product.
- Tearing, altering labels, forging anti-counterfeiting marks, etc.
- Damage caused by force majeure.
- Non compliance with performance faults listed in the performance fault table.

Attention instructions

- The measurement results of this product are for reference only, not for any medical purpose or basis. Please follow the doctor's instructions and never make self-diagnosis and treatment based on the measurement results.
- The waterproof grade of this product is IP68, but it is not against sea water, deep diving and long time soaking in water. At the same time, it doesn't prevent hot water, because steam will affect the watch.
- The company reserves the right to modify the contents of this manual with out any notice. Some functions are different in the corresponding software version, which is normal.
